General Information about Checksheet: Superscripts [F,S,SI,SII] in the Credits column indicates semesters when a CEE course is known to be offered. However, course offerings are subject to change and the availability of sufficient resources. Some CEE Advanced Program and Technical Elective courses are not be offered each academic term. Students must confirm course offerings in advance with their CEE Advisor.

C- policy: A C- or better grade is required in any course that is a prerequisite for a course with a CEE designator. The notation (C-)# is provided for first and second-year advising purposes only and indicates that those courses are prerequisites for a course with a CEE designator. The (C-)# notation is not shown in subsequent years. Students must verify C- policy requirements for all planned courses.

<sup>(1)</sup>Indicates a degree core requirement. Note: Six of the eight Fundamental electives partially satisfy degree core requirements.

<sup>(2)</sup> Indicates a course used to satisfy Pathways requirements.

Pathways to General Education – Required courses that count toward meeting Pathways requirements are indicated in bold font inside the shaded cells in table below. Consult: <a href="mailto:pathways.prov.vt.edu/about/table.html">pathways.prov.vt.edu/about/table.html</a> for courses. Pathways courses must be completed prior to graduation.

**CEE Electives:** The CEE department requires 44 credits of Program, Technical, and Restricted Elective courses broken down as follows:

- 1.12 credits of CEE Fundamental Program Elective courses from the list on p. 3 (courses are 3 cr. unless noted)
- 2. 8 credits of CEE Fundamental Program Elective courses with Lab from the list on p. 3 (courses are 4 cr.)
- 3. 9 credits of CEE Advanced Program Elective courses from the list on p. 3
- 4. 3 credits of CEE Advanced Program Elective course—Design Project from the list on p. 3
- 5. 6 credits of **Technical Electives** selected from Fundamental and Advanced electives courses in the lists on p. 3
- 6. 6 credits of Restricted Electives.

# A. Program Electives-32 credits (C-policy applies)

Program Electives consist of both Fundamental and Advanced courses arranged to provide adequate breadth across the discipline and depth of knowledge in specialty areas of interest. *Interdisciplinary Technical Electives, Independent Study, Undergraduate Research courses do not satisfy these requirements but may be taken in B.* 

Program Electives are selected from the lists on p. 3 and must meet the following criteria:

- 1. Complete *Fundamental courses* in 6 of the 8 specialty areas, at least two of which must have a lab (20 credits). These courses count toward satisfying degree core requirements.
- 2. Complete 1 *Advanced course* in 3 of the 6 specialty areas in which Fundamental courses were selected in Step 1 (9 credits).
- 3. Complete an additional *Advanced course* in 1 of the 3 specialty areas in which advanced courses were selected in Step 2 (3 credits).
- 4. Within selections made in the above steps, complete at least one of the following *Design Project* courses: CEE 3434 (4 credit course. Reduce Restricted Electives by 1-credit if taken), 4014, 4104, 4274, 4334, 4544, 4654, or 4664.

### B. Technical Electives-6 credits (C-policy applies)

Technical Electives are selected from any of the Fundamental and Advanced courses listed on p. 3, including the Interdisciplinary Technical Electives, Independent Study, Undergraduate Research courses. Note: if a 4-credit course is taken, reduce Restricted Electives by 1 credit.

- C. Restricted Electives–6 credits. Restricted Electives (non-CEE) can be satisfied in one of the following ways:
  - 1. Complete 6 credits of courses from the list of approved courses on p. 4. All courses 3 credits unless noted otherwise.
  - 2. Complete one of the approved minors listed on p. 5.

Fundamental (20 credits), Advanced (12 credits) and Technical Elective (6 credits) courses. See instructions under A and B on p. 2. C- policy applies. Courses in **bold font** are *Design Project* courses.

<sup>\*\*</sup>Note: Minor electives chosen must include 6 credits of non-CEE courses that do not also satisfy BSCE degree requirements.

# Change of Major Requirements: Please see https://eng.vt.edu/em

**Foreign Language Requirements:** Students must have completed two years of a foreign language in high school or one year at the college level (6 credit hours) of the same language. College-level credits used to meet this requirement do not count towards the degree.

**Satisfactory Progress Towards Degree:** University Policy 91 outlines university-wide minimum criteria to determine if students are making satisfactory progress towards the completion of their degrees. The CEE Department fully supports this policy. Specific expectations for satisfactory progress for Civil Engineering majors are as follows:

- Each student must meet the minimum University-wide criteria as described in Policy 91 and summarized in the Undergraduate Catalog (https://www.undergradcatalog.registrar.vt.edu).
- A 2.0 overall GPA and a 2.0 in-major GPA must be maintained for continued enrollment in CEE. The in-major GPA consists of all courses taken with a CEE designator.
- Upon completion of 64 GPA hours, a student must have satisfactorily completed CEE 2804, CEE 2814, and CEE 2834.
- Be enrolled in at least one 3-credit CEE course each fall and spring semester.

\*Prerequisites: Some courses on this checksheet have pre-/corequisites; please consult the University Course Catalog (https://www.undergradcatalog.registrar.vt.edu), or check with your advisor for the most current pre-requisites. There are no hidden pre-requisites in the program of study.

**Graduation Requirements:** Students must pass all required courses and both the in-major and overall GPA must be at least 2.0 for graduation. The in-major GPA consists of all courses taken under the CEE designation.

**Additional Checksheet Comments:** Displayed course offerings are subject to sufficient resources. Courses are taught in the term in which they appear on the checksheet. CEE Fundamentals courses are typically taught each fall and spring term, whereas CEE Advanced courses may not be offered each academic term. Consult the CEE course listing and your departmental advisor for updates.
